

The best choice 

- for conveyor applications  
- for mining industry

**EU-Roller** is a H.D.P.E. conveyor idler roller, manufactured from the latest and best materials at present time, and a superior design for the conveyor systems.

## HDPE Idler Rollers:

- ⊗ high resistance to wear
- ⊗ no damage to the belt
- ⊗ none corrosive roller body
- ⊗ very low friction
- ⊗ longer bearing life
- ⊗ lesser mass of the roller
- ⊗ saving on start-up costs
- ⊗ very low noise pollution
- ⊗ shock resistant bearing cover
- ⊗ eco-friendly
- ⊗ robust design

### Available sizes:

89, 102, 108 and 114 mm diameter 20 & 25 series

127 and 133 mm diameter 20 & 25 series

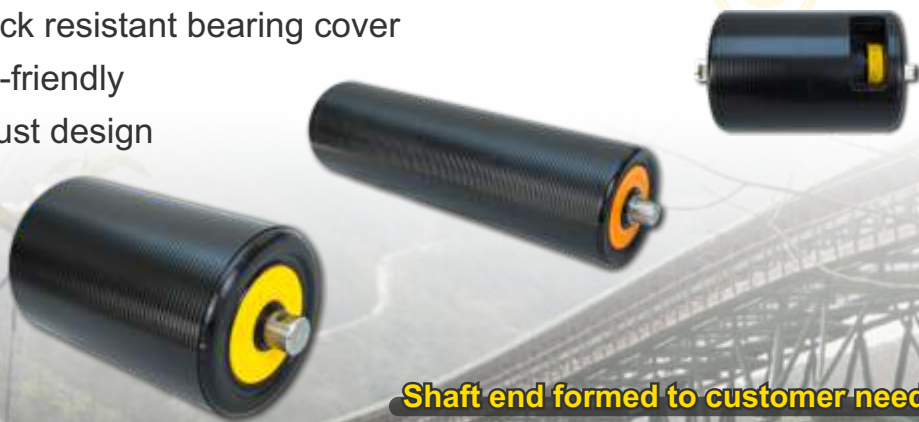

152 and 159 mm diameter 25,30 & 40 series

178 mm diameter 25,30,40 & 50 series

194 mm diameter 40 & 50 series

Standard, Anti-Seize, Side and Heavy Duty Series

Length of rollers to suit the customer: 180 - 2050 mm  
(2300 mm is under development)

**Shaft end formed to customer needs**

**Also small batch production**
